

2024 Netskope

— Service Catalog —

Netskope Services Portfolio

Together with our partner Cloudrise we help partners and organizations elevate their data protection, privacy and cloud security programs. Drawing from 20+ years of experience in the field, we have tailored our services to be focused on securing organizations' data wherever it resides. In addition to our data-centric professional and managed services, Exclusive Networks offers Netskope-specific services tailored to your business needs.

Services for Netskope

Deployment Services

Regardless of the size of the organization, Exclusive Networks offers **deploy, configure, optimize, and managed services for Netskope**. If implementing Netskope for the first time, our **Deployment Services** will get the platform operational and customized for your business needs. If already installed, we will **optimize your deployment to drive the greatest ROI** out of the Netskope Platform. **Not finding what you are looking for?** We can customize a quote for any Netskope product or licensing package.

SCOPE & ACTIVITIES

- Provision user identities, groups, and organization units from either Active Directory or one of the supported Cloud Identity Directories to the Netskope Cloud Security Platform.
- Deploy Single Sign On (SSO) and Role Based Access Control (RBAC) for Netskope Tenant Admin Console.
- Deploy Forensics and Incident Management.
- Deploy foundational steering mechanisms and baseline out-of-the-box policies.
- Integrate Netskope Cloud Security Platform with other supported security tools using Cloud Exchange. Includes up to 3 plugins.
- Create deliverables (HLD and As-Built Document) and perform knowledge transfer.

SECURE SERVICE EDGE (SSE)

Deploy Netskope SSE to include Netskope Private Access (NPA), Next Gen Secure Web Gateway (NG-SWG), Cloud Firewall (CFW), Advanced Threat, Advanced Data Loss Prevention (DLP), Advanced User Entity Behavior Analytics (UEBA), and Advanced Analytics.

Cloudrise Services for Netskope

Deployment Services

SCOPE & ACTIVITIES

Next Generation Secure Web Gateway (NG-SWG)

- Deploy NG-SWG for endpoint platforms using Netskope Client and/or IPsec/Generic Routing Encapsulation (GRE) tunnels.
- Activate users, configure SWG policies, and support production pilot group(s).

<1K Users	1,001 – 5K Users	5,001 – 10K Users	10,001 – 50K Users
Includes: <ul style="list-style-type: none">• 1 location (2 IP/GRE tunnels)• 1 steering method• 3 policies• 3 production pilot groups	Includes: <ul style="list-style-type: none">• 2 locations (4 IP/GRE tunnels)• 1 steering method• 8 policies• 4 production pilot groups	Includes: <ul style="list-style-type: none">• 3 locations (6 IP/GRE tunnels)• 2 steering methods• 12 policies• 5 production pilot groups	Includes: <ul style="list-style-type: none">• 4 locations (8 IP/GRE tunnels)• 3 steering methods• 20 policies• 6 production pilot groups

API-Based Cloud Access Security Broker (API-CASB)

- Deploy connections to managed cloud apps. Activate users and configure CASB API policies to act on the exposure of sensitive data at rest.
- Perform data at rest scanning for threat data.
- Provide overview of dashboards.

<1K Users	1,001 – 5K Users	5,001 – 10K Users	10,001 – 50K Users
Includes: <ul style="list-style-type: none">• 3 connections• 3 policies	Includes: <ul style="list-style-type: none">• 8 connections• 8 policies	Includes: <ul style="list-style-type: none">• 12 connections• 12 policies	Includes: <ul style="list-style-type: none">• 20 connections• 20 policies

Email Data Loss Prevention (EDLP)

- Deploy DLP rules within the Netskope Email Data Loss Prevention (DLP) solution.
- Provide support for in-scope production pilot groups.

<1K Users	1,001 – 5K Users	5,001 – 10K Users	10,001 – 50K Users
Includes: <ul style="list-style-type: none">• Support for 1 production pilot group• 3 DLP rules	Includes: <ul style="list-style-type: none">• Support for 2 production pilot groups• 5 DLP rules	Includes: <ul style="list-style-type: none">• Support for 3 production pilot groups• 8 DLP rules	Includes: <ul style="list-style-type: none">• Support for 4 production pilot groups• 12 DLP rules

Cloudrise Services for Netskope

Deployment Services

SCOPE & ACTIVITIES

Cloud Inline (CLINL)

- Deploy Netskope Cloud Inline for multiple endpoint platforms using the Netskope Client.
- Includes the deployment of traffic steering mechanisms, API-based Cloud Access Security Broker (CASB) policies, Advanced Threat policies, Advanced Data Loss Prevention (DLP) rules, and predefined User Entity Behavior Analytics (UEBA).

<1K Users	1,001 – 5K Users	5,001 – 10K Users	10,001 – 50K Users
<p>Includes:</p> <ul style="list-style-type: none">• Support for 3 production pilot groups• 1 steering mechanism• 5 CASB policies• 3 DLP rules• 1 threat policy• Predefined UEBA	<p>Includes:</p> <ul style="list-style-type: none">• Support for 4 production pilot groups• 1 steering mechanism• 8 CASB policies• 3 DLP rules• 1 threat policy• Predefined UEBA	<p>Includes:</p> <ul style="list-style-type: none">• Support for 5 production pilot groups• 2 steering mechanisms• 12 CASB policies• 3 DLP rules• 1 threat policy• Predefined UEBA	<p>Includes:</p> <ul style="list-style-type: none">• Support for 6 production pilot groups• 2 steering mechanisms• 20 CASB policies• 3 DLP rules• 1 threat policy• Predefined UEBA

Netskope Private Access (NPA)

- Configure the Netskope Private Access solution for Windows and iOS endpoint platforms.
- Includes the deployment of private application and private application-based policies, Netskope publishers, and production pilot group support.

<1K Users	1,001 – 5K Users	5,001 – 10K Users	10,001 – 50K Users
<p>Includes:</p> <ul style="list-style-type: none">• 5 private app & private app-based policies• 2 Netskope publishers• Support for 1 production pilot group	<p>Includes:</p> <ul style="list-style-type: none">• 10 private app & private app-based policies• 4 Netskope publishers• Support for 2 production pilot groups	<p>Includes:</p> <ul style="list-style-type: none">• 20 private app & private app-based policies• 8 Netskope publishers• Support for 4 production pilot groups	<p>Includes:</p> <ul style="list-style-type: none">• 50 private app & private app-based policies• 12 Netskope publishers• Support for 5 production pilot groups

Managed & Universal Services on following pages ...

Cloudrise Services for Netskope

Managed Services

Cloudrise Managed Services provide customers options for platform and program configuration, optimization, and management. These are fixed-cost services that will maximize your value from the Netskope platform, and continuously operate and improve your data protection program in a cost-effective manner.

SCOPE & ACTIVITIES

Managed Services

Intended for customers with technical teams desiring to co-manage the platform once deployed and optimized. Managed Services are the best choice for customers who intend to assume all platform and program management duties and responsibilities but need additional SME support in year 1.

Included:

- Provision user identities, groups, and organization units from either Active Directory or one of the supported Cloud Identity Directories to the Netskope Platform.
- Manage Single Sign On and Role Based Access Control for Netskope Tenant Admin Console.
- Manage Forensics and Incident Management.
- Manage in-scope Netskope solution, activate users, configure policies, and support production pilot groups.
- Integrate Netskope with other supported security tools using Cloud Exchange.
- Create deliverables (HLD and As-Built Document) and perform knowledge transfer.
- Provide policy advise and support
- Customize reports and dashboards
- Provide technical support
- Policy management
- Subject matter expert support
- P1 / P2 ticket support
- Value realization / feature updates
- Security governance planning & strategy sessions, including quarterly business reviews and cadence meetings customized to customer needs

Cloudrise Services for Netskope

Universal Services

Tailored for organization-specific business needs, Cloudrise Universal Services can be utilized with any data protection, cloud security, or data privacy technologies and programs.
